# Systems Science for Social Impact

Summer Training Institute at the Brown School at Washington University

At this 5-day Summer Training Institute, participants will get a hands-on introduction to systems science methods that enhance the social impact of health and social science research. Led by experienced systems science scholars, this in-depth training institute will feature five major systems science tracks: **intro to systems**, **agent-based modeling**, **group model building**, **social network analysis**, and **system dynamics**. Participants will review the major concepts of their chosen track, learn analytic best practices, and apply the methods to real-world data.

APPLICATIONS ARE OPEN FOR

## SUMMER 2024 • Aug 12 - 16

Tuition of \$1,800 (\$1,260 for current students) includes 5 days of training in your chosen track, a welcome reception, additional plenary sessions and panels, and an evening social event with all attendees, staff, and instructors.

### CHOOSE FROM 5 SYSTEMS SCIENCE TRACKS:

#### Intro to Systems

VIRGINIA MCKAY  
ALEXANDRA MORSHED

#### Agent-Based Modeling

ROSS HAMMOND  
MATT KASMAN

#### Group Model Building

ELLIS BALLARD  
KELSEY WERNER

#### Social Network Analysis

DOUG LUKE  
SARA MALONE

#### System Dynamics

NASIM SABOUNCHI  
KRISTEN HASSMILLER LICH
